Brief Summary of Discussion (200 words max): In this meeting, we showed the supervisor on our current progress of creating the app and requested feedback on the UI and our report. We also discussed about some issues regarding code quality, UI, and test issues that existed after merging all our code for the app. Additionally, we were briefly introduced about what we are going to do in the next Deliverable and talked about what Dr. Zila said previously about how to submit the deliverable to provide a consensus for this coursework between all team members.	
Agreed Actions: Each team members fix their own code in the app and cooperate to complete the report (create graphs, document what each person has done).
