Date of Meeting:	12 / 11 / 2025
Meeting Number:	4
Brief Summary of Discussion (200 words max): During this meeting, we have discussed about our Deliverable 2 and delegated our tasks where each person creates their own persona and scenario, and what to design for our design concepts. We also met with our supervisor Dr. Najib and Dr. Abobakr, where they raised some questions about our current progress and gave some ideas about what to consider when conducting our coursework which improved our understanding about the coursework.	
Agreed Actions: - Each person creates their own Persona and Scenario for the deliverable - The design of our app is split into 4 sections, where everyone split and design their own iteration of the app's layout - We agreed upon making a desktop app using JavaFX in this coursework	

Issues:

- There was a debate for choosing to make a mobile or desktop app, but since not many of us have in-depth knowledge about mobile development, we decided to stick with desktop apps instead.
