Brief Summary of Discussion (200 words max): In this meeting, we have discussed about what we are going to do for Deliverable 4. We decided to use Clickup as our project management software, shared our OneDrive folder for D4, and divided our tasks on what to submit.	
Agreed Actions: - Each person creates a starting point for their chosen UML diagram first, and the other teammates will fill in the content with their responsible part of the app functionality - Each person enters their responsible tasks when creating the app inside of Clickup for project management
