Meeting Number:	3
Brief Summary of Discussion (200 words max): This is our third meeting. During this meeting, we finalized the structure and content of our affinity diagram. We cross-checked our affinity diagram with our thematic analysis to make sure that all the themes and codes matched. We also voiced our suggestions for potential codes and quotes to be included in the affinity diagram. We ended up reordering some of the codes and placed them under themes that already existed. We also discussed the points that we were going to write for our problem statements and objectives. Lastly, we made sure all our citations and references were added in with the correct order.	
Agreed Actions: ○ We agreed to cross-check each of our sections that we did for the literature review ○ We agreed to split the report into four key sections, with each of us completing one section ○ Agreed on potential code changes for our thematic analysis	

Issues:

There were some confusions with the affinity diagram at first, as we had codes misplaced in irrelevant themes. However, we swiftly sorted it out and restructured it. There were also minor issues with the citations and the references, but we managed to correct it with ease.
