Lushantha Lee Ning	Yes		
Mah Han Cheng	Yes		
Abdul Hadi Ghani	Yes		
Supervisor:			

Date of Meeting:	29/10/2025
Meeting Number:	02
Brief Summary of Discussion (200 words max): This is our second meeting; we met up to finalise the points we intend to include in our literature review. We compiled all our points obtained from our individual research and shortlisted the ones we think are most influential. We concluded having four main issues that have the most effect on Digital Sexual Health: Design gaps, privacy, concerns towards STIs, and misinformation. From there, we discussed the structure and format of our literature review and divided the work accordingly. We also talked about the process of creating our affinity diagram, which we plan to first complete the sub-themes through each part of the interview transcript, and slowly work our way up by finding common themes.	
Agreed Actions: Each of us is responsible for writing about one of the four issues. However, due to the overlapping of key points in our research, we agreed to help each other out by adding a section with extra points just in case any of us missed something important.	

Issues:

No issues, conversations were clear and concise, and there was no objection to anything we finalised upon.
